The Center advocates on public policy issues that affect North Carolina's nonprofit sector and works with the NC General Assembly and North Carolina's members of Congress to develop laws and policies that save nonprofits time and money, help nonprofits operate more effectively, and preserve the public's trust in North Carolina's nonprofit sector. Our policy agenda includes:

- Ensuring that all 501(c)(3) nonprofits are fully exempt from federal, state, and local taxes.
- Promoting new and expanded tax deductions and credits that encourage individuals and businesses to give generously to support their communities through the work of charitable nonprofits.
- Supporting policy solutions that will address the nonprofit workforce shortage, including increased funding to support jobs in the nonprofit sector and investment in accessible and affordable child care.
- Seeking solutions to long-standing challenges that nonprofits face when they provide public services through government grants and contracts, including late contracts, late payments, overly complicated application and reporting requirements, and underpayment for indirect costs.
- Promoting laws that will help nonprofits and businesses alike to provide affordable and high-quality health care and other benefits to their employees.

Q3. If elected, which of these policy goals would you support most enthusiastically, and why? (Limit: 250 words)

I am retired as a career police officer and had training as an EMT. My stepdaughter is a teacher with my 3 granddaughters in Johnston County schools, and I'm concerned about the lack of safety in most schools, how many LEO's, EMT's and firefighters have left their professions and the county infrastructure (not enough water sources, schools , fire departments) in county. There is NO domestic violence shelter in the county.
